Anchor Donor Levels

At this stage of our capital campaign, we are especially focused on securing larger founding gifts that will help lay the groundwork for the continued development and construction of the Children's Discovery Center. Every contribution brings us closer to realizing our vision of the Children's Discovery Center that will serve families and spark imagination for generations to come.

We warmly welcome and value every gift, and we invite you to join us on this exciting journey in a way that feels meaningful to you. We kindly ask you to make your most generous gift to help us reach our ambitious goal of opening the Children's Discovery Center as soon as possible.

As we progress further in the campaign, we will be working with a museum planner and fabricator to finalize the design of each gallery. While the core vision for each space will remain true to what we've shared, specific details of the exhibits will be finalized in collaboration with the museum planners. Although we cannot guarantee the final specifics of exhibits, we will do our best to find a meaningful and appropriate way to reflect your donation.

Mindfulness and Physical Play Tree Climber

Gallery Description: This towering tree stretches from the gallery floor to the ceiling, inviting children to embark on an unforgettable journey of movement and imagination. Venture through the tree's trunk or ascend the spiral staircase to the canopy, where rooms, forts, cubbies, and overlooks await.

Along the way, children can traverse rope bridges, ladders, chutes, slides, and tunnels—each offering a new pathway to navigate. The **Leaf Dwellers Climber** not only strengthens physical skills like stretching, balance, coordination, and endurance, but also supports mental health by encouraging problem-solving, resilience, communication, and self-confidence.

For our youngest visitors, the **Infant & Toddler Park Preserve** provides a safe, engaging environment tailored to early developmental needs. Infants, crawlers, and toddlers can explore physical, spatial, and cognitive challenges designed to foster healthy growth.

This extraordinary tree combines the adventure of physical play with opportunities to grow confidence, resilience, and creativity. **By sponsoring the tree or parts of it, your name or business will be permanently recognized as a champion of children's physical and mental health, helping young learners thrive in body, mind, and spirit.**
