

Nature Play Gallery

Mindfulness and Physical Play Tree Climber

Gallery Description: This towering tree stretches from the gallery floor to the ceiling, inviting children to embark on an unforgettable journey of movement and imagination. Venture through the tree's trunk or ascend the spiral staircase to the canopy, where rooms, forts, cubbies, and overlooks await.

Along the way, children can traverse rope bridges, ladders, chutes, slides, and tunnels—each offering a new pathway to navigate. The **Leaf Dwellers Climber** not only strengthens physical skills like stretching, balance, coordination, and endurance, but also supports mental health by encouraging problem-solving, resilience, communication, and self-confidence.

For our youngest visitors, the **Infant & Toddler Park Preserve** provides a safe, engaging environment tailored to early developmental needs. Infants, crawlers, and toddlers can explore physical, spatial, and cognitive challenges designed to foster healthy growth.

This extraordinary tree combines the adventure of physical play with opportunities to grow confidence, resilience, and creativity. **By sponsoring the tree or parts of it, your name or business will be permanently recognized as a champion of children's physical and mental health, helping young learners thrive in body, mind, and spirit.**

Exhibit Sponsor Details: When you support the Children's Discovery Center, your generosity will be recognized in a lasting way. Your name—or your business name—will be proudly acknowledged on our donor wall and, at certain levels, featured next to the exhibit you help bring to life.
